notice of a motion to recommit the election bill with instructions to the committee to report it back with a provision for the election of members of Congress on days when no other elections are held in the several states; and this motion may be made the excuse for getting rid of the bill quietly when the republicans discover their inability to pass it, for if it is recommitted to the committee it will never get before the Senate again. Notwithstanding their having made speeches against the Force bill Senators Teller, Wolcott and Stewart are now acting with and voting with their republican colleagues in their efforts to pass the bill. This is significant, in as much as it shows that the democrats need expect no help from republicans in defeating the bill.
